SUBJ: Trustee Notification for the Terry Creek Superfund
Site, Brunswick, Glynn County, Georgia (the "Site")

Dear Mr. Dillon:

This memorandum is an official notification to the "trustees" as referred to in the 40 CFR 300.135 (j) of the National Contingency Plan (NCP) for the Terry Creek Superfund Site. Subpart J of the NCP requires the OSC to promptly notify the trustees for natural resources of discharges or releases that are injuring or may injure natural resources under their jurisdiction.

Along with this memorandum is the attachment entitled "Terry Creek Ecological Screening Evaluation Brunswick, Georgia". This attachment was conducted by SEDS of the EPA for the Removal Program as part of a removal assessment.

If you have any questions please contact me, at (404)562-8772 and/or at Francendese.Leo@epamail.epa.gov or Paul Peronard, OSC at (404)562-8767 and/or at Peronard.Paul@epamail.epa.gov. As you may know, this Site has also been proposed for the National Priorities List. Accordingly, the Agency is coordinating both and the Removal and Remedial actions at this Site. The Remedial Project Manager (RPM) for the Site is Annie Godfrey. She may be contacted at (404)562-8919 and/or at Godfrey.Annie@epamail.epa.gov.

Respectfully,

A handwritten signature in black ink, appearing to read "Leo", followed by a long horizontal flourish.

Leo Francendese
On Scene Coordinator
Region IV
